A SAFE SAVINGS BANK.

There is every reason to believe that
the savings banks of Vermont are all
safe, sound and strong. That the public
so believe is evidenced by the recent re-
port of the inspector of banks, showing
almost unprecedented gains in deposits
during the past year. If the confidence
in the safety of Vermont savings banks,
however, is to be measured by the growth
of deposits, then unquestionably the
Hyde Park Savings bank holds the first
place for its percentage of increase in
deposits during the three fiscal years
ending July 1, 1910, barring perhaps
some recently established banks upon
which of course a percentage basis of in-
crease could not be computed, is more
than that of any other bank in the state.

Stated in terms that can be under-
stood by all, the deposits in the Hyde
Park Savings bank during the last three
years have exceeded the withdrawals by
more than \$1,000 for each business day
during the entire three years. We know
of no parallel anywhere, except in some
of the large city banks.

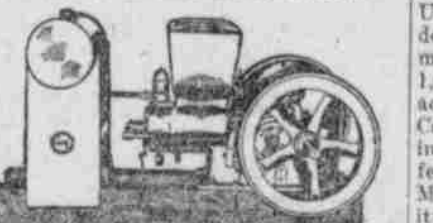

The Hyde Park bank pays 4 per cent.
interest, compounded semi-annually, and
deposits made before November 10 will
draw interest from October 1. It pays
the taxes on all deposits up to \$2,000,
and the Lamont National bank of
Hyde Park, under the same manage-
ment, will accept, upon the same terms,
any sums in excess of this \$2,000.

As evidencing the safety of making de-
posits by mail, it may be stated that its
existence not a dollar of remittances to
the Hyde Park Savings bank, by mail,
has ever been lost. It is entirely safe
to make deposits either by personal
check, bank draft, postal money order,
express order, or cash in registered letter.
This bank respectfully solicits your de-
posits.

If any further information is desired,
send your post office address on a postal
card to Carroll S. Page, president, or
F. M. Culver, treasurer, Hyde Park, Ver-
mont, and a prompt reply will be forth-
coming.—News and Citizen.

John Mattison, son of Representative
Norman Mattison of Glastenbury, was
the victim of a serious accident Monday,
when he ran the time of a hay fork
completely through the calf of one leg.

He went to the barn about daylight to
feed the cattle. To climb into one of the
mows, he drove his fork into the solid
wall of hay, for a foot rest, but his
weight was too much and the fork pulled
out, the middle time penetrating his leg
about half way between the foot and
knee. In his fall, the time passed com-
pletely through his leg, the outside time
passing on each side of the limb. A
large artery was severed and the young
man very weak from loss of blood,
but he pulled out the steel and limped
into the house. Although the wound is
a severe one, it is thought there will be
no serious results unless blood poisoning
sets in.

About the State

The expenses of the short September
term of Chittenden county court, which
adjourned last week, were \$2,398.56.

Benjamin Myott of East Sheldon
slipped and fell Friday, striking on his
face, and his nose was split open and
he was otherwise injured. Several
stitches were required to close the gash.

Truman Ellithorp of Bridport met with
a peculiar accident Friday. While mount-
ing a wagon seat, his foot slipped on
the wheel and he fell on the spout of
an oil can, which penetrated his side
over two inches, in a slanting direction.

Mrs. Elizabeth Jones of Poultney is
suffering from a peculiar disease and is
in a serious condition. She had a slight
illness, which left her totally blind in
one eye and partially blind in the other.
She is in a hospital in Albany, N. Y.,
for treatment.

Henry Prescott Butler, the prominent
New York lawyer, whose sudden death
was announced in the papers Tuesday,
was well known in Vermont, especially
in Burlington, where he was a visitor
last year during Terecentenary week,
when he addressed the veterans.

A. P. Cutting's house, one mile north
of South Londonderry, and all the out-
buildings, including all the farm prod-
ucts, were destroyed by fire Tuesday.
The loss was about \$3,000 and was par-
tially insured. The fire caught in one
of the barns, but the cause is unknown.
The stock and household furniture were
saved.

O. S. Rixford has just shipped from
his large apple orchard in East High-
gate five carloads of the fruit, or about
3,000 bushels. They were shipped to
E. D. Gale of Buffalo, N. Y., who has
contracted for the entire output of the
orchard for a number of years. The
crops was considerably smaller than
usual. E. T. Holmes of Charlotte has
finished harvesting his apples and has
shipped 4,700 barrels, a thousand bar-
rels more than last year.

P. E. Crady of Burlington is working
on a model for a non-refillable bottle
and will shortly apply for a patent. The
bottle, Mr. Crady says, cannot be refilled,
even under the highest pressure, and it
will be of no value whatever as soon as
several firms who were making standard
brands of goods offered large sums for
bottles which could not be filled with
goods that purported to be theirs. Mr.
Crady thinks he has solved the problem
and, although he will not divulge the
secret, it is understood that the bottle
is destroyed when the contents are gone.

A. E. Kingsley, who, with Mrs. King-
sley, was badly injured Monday in a
runaway accident in Brandon, died
Wednesday as a result. The horse which
Mr. Kingsley was driving became fright-
ened at an automobile and both he and
his wife were thrown from the wagon.
Mrs. Kingsley had one arm broken, but
Mr. Kingsley's arm was broken, his hip
dislocated and he suffered internal in-
juries, which caused his death. He had
lived in Brandon for 40 years and for
some time was engaged in the grocery
business. He was a member of the
Methodist church and had served on the
official board over 30 years. His 61st
wedding anniversary occurred Tuesday.

Romeo King, aged 11 years, and Ward
Badger, aged 8 years, were arrested Tues-
day in Morrisville for robbing the money
drawer of the Morrisville Foundry com-
pany and taking its contents, \$10.98.
Both were sentenced to spend the re-
mainder of their minority in the reform
school at Vergennes, and the King boy
has been taken there, while the Badger
boy was placed in the hands of a proba-
tion officer. They entered the shop short-
ly before closing time and hid under a
rack of pipe and shafting. When the
men had gone, young King went to the
office, turned on the lights, pried open
the money drawer with a screw driver
and took the contents.

It may not be generally known that
asbestos was first discovered in the
United States in the year 1880 on Belvi-
dere mountain in Orleans county, Ver-
mont, on a tract of land embracing about
1,000 acres. This discovery was purely
accidental and was made by a French-
Canadian woodman, who was conduct-
ing a lumber camp there. Later, Pro-
fessor Dresser of McGill university,
Montreal, Canada, a recognized author-
ity on asbestos, made an exhaustive ex-
amination and decided that the serpen-
tine belt found at Thetford, in the province
of Quebec, was continued over the
boundary line into Vermont, and that it
terminated at Belvidere mountain. The
Lowell Lumber & Asbestos company,
which now operates a modern fiberizing
plant there, sends its product even to
continental Europe.

BRATTLEBORO MILL ASSURED.

Much Progress Made On \$500,000 Textile
Project Promoted by M. G. Chace.

Brattleboro, Oct. 28.—The \$500,000
textile mill project for this place, in
which Malcolm G. Chace of Providence
is a chief promoter, is now assured. The
\$120,000 which the promoters required
of Brattleboro people has been guaran-
teed. The town has voted exemption
from taxation for the concern for a
period of ten years. The remainder of
the \$500,000 necessary to assure the
erection of the plant will be supplied
by the promoters.

The Brattleboro board of trade has
purchased land where fifty tenement
houses are to be constructed at once
for the mill employees, numbering at
the outset about 300 hands.
The new industrial concern is to be
called the Fort Dunham mills. The mill
is to be located near the White River
Chair company's plant, southeast of Oak
Grove extension, a newly laid-out resi-
dential tract of land of about forty
acres of high elevation. The plant will

consist of a three-story spinning mill,
250x75 feet, and a two-story weaving
mill, 200x96 feet. The corporation will
be capitalized at \$450,000, all of the
stock being taken at par and for cash.
The mill will have the lowest capital-
ization per spindle of any in New Eng-
land.

Malcolm G. Chace is to be president
and manager of the new concern. H. I.
Harriman of Hyde Park, Mass., is an-
other prominent projector of the new
enterprise.

The new mill is hailed at Brattleboro
as the greatest industrial opportunity
in its history. The town was enabled
to take advantage of the offer to the
Providence and Hyde Park mill men on
account of the construction of a \$2-
000,000 dam a year ago.
